

PUBLIC WORKS INDEX

Volume 82
January-December 1951

AIRPORTS

	Month and page
Weed Control and Land Sterilization at an Airport	Jan.—64
International Air Terminal at Isla Verde, P. R.	Feb.—45
Pavement Design for Roads and Airfields	Nov.—40

CONSTRUCTION METHODS AND REPORTS

Equipment Used by County Engineers	Jan.—42
Street Pavement Design and Construction	Feb.—60
How to Use Rubber Asphalt Joint Compounds	Feb.—76
Construction Problems on Sand-spit Highway	Mar.—43
Relocation	Apr.—113
How a Big Engineering Firm Handles a Paving Program	May—34
13,010 Cubic Yards of Dirt in 10 Hours	May—76
Roads Constructed While You Wait	June—76
Ocracoke's Beach Sand Roads	July—42
Pavement Widened With Job Modified Equipment	Aug.—56
Efficiency of Night Construction with Lights	Aug.—73
Progress Report on San Antonio Expressway	Sept.—52
Reports from the Field on Better Methods and Equipment	Sept.—62; Oct.—86; Dec.—54
Viaduct Construction Poses Many Problems	Dec.—49

HIGHWAYS AND STREETS

Bituminous Pavements

Street Pavement Design and Construction	Feb.—60
Red Asphalt Used in London	Feb.—76
Grid Roller Reduces Road Salvage Time	July—47
Bituminous Contractor Uses 2-Way Radio	July—57
New York's Asphalt Resurfacing Practice	Oct.—50
Laying a Double Bituminous Surface	Nov.—31

Bridges, Culverts and Drainage

How Rebuilder of Brooklyn Bridge Overcame Two Problems	July—34
Cleaning 20 Catch Basins a Day	Sept.—41

Concrete Pavements

Street Pavement Design and Construction	Feb.—60
How to Use Rubber Asphalt Joint Compounds	Feb.—76
4-Lane Highway for Puerto Rico	Mar.—37
Ocracoke's Beach Sand Roads	July—42
Colored, Heavy and Light Weight Concrete	Aug.—42
Air-Gravel Concrete	Sept.—64
Prestressed Concrete Road	Nov.—64

Costs

Highway Construction Cost Trends	Mar.—28
New Equipment Reduces Road Cost 75%	Mar.—28
Price Trends on FA Highway Construction	June—76
Grader and Shovel Pay for Themselves	Nov.—33
Highway Construction Costs	Dec.—48

Curbs, Gutters and Sidewalks

Pouring Curb & Gutter Direct from Dump Truck	Feb.—36
Faster Curb and Gutter Construction	Feb.—37
Laying Curbs and Gutter by Machine	Dec.—43

Design

Street Pavement Design and Construction	Feb.—60
Construction Problems on Sand-spit Highway	Mar.—43
Progress Report on Maryland Test Road	June—89
Mobile Highway Testing Laboratory	July—75
Pavement Design for Roads and Airfields	Nov.—40

Digests

Jan.—61; Feb.—72; Mar.—73; Apr.—116; May—65; June—86; July—64; Aug.—77; Sept.—79; Oct.—108; Nov.—65; Dec.—76
--

Equipment

Equipment Used by County Engineers	Jan.—42
New Equipment Improves Economic Status	Jan.—44
Better Ways of Using Motor Trucks	Feb.—35
How a Poor County Can Be Rich in Equipment	Feb.—41
On-the-Job Equipment Designed by County Engineers	Feb.—54
New Equipment Reduces Road Cost 75%	Mar.—28
Time and Money Saving Methods and Equipment	June—45
Truck Loader Has Many Uses	June—45
Special Engines Expedite Moving Rock Crusher	July—67
Reports from the Field—Better Methods and Equipment	Sept.—62; Oct.—86; Dec.—54
Hurry-Up Service for a Housing Development	Nov.—32
Air Tools Are Most Valuable Equipment	Nov.—32
Municipal Engineering Problems and Solutions	Nov.—32
Extension Blade Cutter for Motor Grader	Nov.—33

Planning

New Equipment Improves Economic Status	Jan.—44
Why Municipal Engineering Records Are Essential	Jan.—49
How a Poor County Can Be Rich in Equipment	Feb.—41
Numerical Ratings of County Highways	Feb.—51
Philadelphia's 6-Year Improvement Program	Feb.—77
Colorado Standardizes Road Surfaces	May—40
Map Rack Facilities Planning	June—48
Uniform House Numbering and Street Naming System	June—58
Philadelphia's Six-Year Program for Public Works	Aug.—46

Roadside Improvement

Weed Sprayer for Along-the-Curb Spraying	Feb.—36
A Tree Trimmer from Bomb Carrier Helicopter Used for Spraying	Feb.—39
Shade Trees	June—88
Erosion Control Methods on Highways	Aug.—76
Power Saws Save \$80 per Tree Removed	Sept.—42
How to Get Better Grass for the Taxpayer	Sept.—45
Weed Control Along Highways by Soil Sterilization	Sept.—70

Snow and Ice Control

Snow Removal with Excavating Scraper	Jan.—50
Boxes Help in Snow Removal	Feb.—58
Heating Bridge Decks and Pavements	Apr.—103
Snow Control Structures for Roads	Apr.—121
Better Ice Control with Rock Salt	Aug.—41
Snow Shed Protects Cascade Highway	Oct.—54
Bus and Truck Companies Approve Rock Salt Use	Oct.—112
Pittsburgh Salt Boxes Speed Snow Removal	Dec.—82

Stabilized Surfaces

Street Pavement Design and Construction	Feb.—60
---	---------

Street Cleaning

Leaf Cleaning in Princeton	Feb.—38
One-Side Parking Aids Street Cleaning	Mar.—38
Handling Leaves and Street Signs	June—47
Special Street Cleaning Tax	Oct.—112
A Special Shoe for Gutter Cleaning	Nov.—81

Surface Maintenance

A Rating Method for Street Resurfacing	Feb.—50
Asphalt Softener Permits Reworking Old Pavement	Apr.—102
Two-Way Radio Speeds Street Maintenance	Apr.—130
Cold Patch Material Heater	June—46
Methods of Highway Servicing and Maintenance	June—90
Wetting Agent for Wet Weather Road Surfacing	June—98
Small Distributor Mounted on Dump Truck	Aug.—48
New York's Asphalt Resurfacing Practice	Oct.—59
Oil Mat Resurfacing for Improved Streets	Oct.—60
Plan Now for Spring Maintenance	Dec.—57
Modern Street Oiling Practices in Lewiston	Dec.—82

Surveys

Aerial Surveys Save Time and Money	Jan.—31
------------------------------------	---------

Traffic and Parking

Requirements for Offstreet Parking	Jan.—65
Truck for Street and Traffic Signing	Feb.—39
Traffic Control Planning for Civil Defense	Apr.—74
Reducing Traffic Interference From Excavations	Apr.—106
How Hackensack Solved Its Parking Problems	May—42
Denison Installs Permanent Traffic Markers	June—45
Handling Leaves and Street Signs	June—47
Small Town Solves Parking Problem	June—91
Narrow Median Strips on Highways	Aug.—81
Off-Street Parking Required	Nov.—60

Weed Control

Weed Control and Land Sterilization at an Airport	Jan.—64
Weed Sprayer for Along-the-Curb Spraying	Feb.—36
Brush Killed by Winter Spraying	May—49
Weed Control Along Highways by Soil Sterilization	Sept.—70

POWER AND LIGHT

Truck Mounted Boom for Street Light Work	Feb.—70
Municipal Power Plant Boosts Profits \$2000 a Month	Sept.—60

CIVIL DEFENSE

	Month and page
Emergency Water Connections	Jan.—52
The Concept of Civil Defense	Apr.—69
Engineering Planning for Disaster	Apr.—62
The Toledo Plan for Civil Defense	Apr.—64
Sanitary Engineering Problems in Disaster	Apr.—68
Civil Defense for Water Supplies	Apr.—71
Traffic Control Planning for Civil Defense	Apr.—74
Civil Defense for the Sewage Treatment Plant	Apr.—77
Insect and Rodent Control in Civil Defense	Apr.—79
Trailer Coaches for Temporary Housing	Apr.—82
Floor Space and Facilities for Shelters	Apr.—102
Civil Defense Bibliography	May—24
CAP—Mobile Support for Civil Defense	May—31
Pocket Size Radiation Detector	May—38
An Outline for Action for Civil Defense	June—43
Communications Network for Civil Defense	July—31
Diesel Power for Pumping and Civil Defense	Aug.—49
How Civil Defense is Organized in a Critical Area	Aug.—54
Cleaning Up After the Missouri River Flood	Aug.—62
Radio's Place in Civil Defense	Sept.—50
Civil Defense Planning for the Water Department	Oct.—57
How Pest Control Operators Can Serve in Civil Defense	Oct.—110

REFUSE COLLECTION AND DISPOSAL

Collection Methods

Size Limit on Garbage Cans	Apr.—82
Refuse Collection and Disposal Costs and Methods	Sept.—54
City Supplies Garbage Cans	Oct.—129
The World's Largest Municipal Refuse Collection System	Nov.—43
Foot Accident Protection for Refuse Carriers	Nov.—63

Costs

Costs of Municipal Refuse Collection and Disposal	July—18
Refuse Collection and Disposal Costs and Methods	Sept.—54
Garbage and Ash Collection Costs	Dec.—38

Incineration

Philadelphia's Six-Year Program for Public Works	Aug.—46
--	---------

Sanitary Fill

Sanitary Landfill Experience at Memphis	Mar.—58
Sanitary Landfill in a Cold Climate	Mar.—83
Sanitary Landfill Handles 9½ Million Yards Yearly	July—39
Refuse Collection and Disposal Costs and Methods	Sept.—54
Sanitary Fill Data from San Francisco	Sept.—72

Other Disposal Methods

Septic Tank Design for Food Waste Disposer	Mar.—51
--	---------

Digests

Jan.—55; Feb.—78; Mar.—66; Apr.—122; May—59; June—92; July—58; Aug.—83; Sept.—73; Oct.—114; Nov.—57; Dec.—83
--

SEWERAGE AND SEWAGE TREATMENT

Sewer Systems—Construction

Ditcher Remodeled for Highway Clearance	Feb.—62
A-Frame Handles Sewer Pipe	Feb.—64
Precast Concrete Catch Basin	Feb.—65
Air Tools Indispensable for Trenching	Mar.—26
Joining Compounds for Sewer Pipes	Aug.—74
Building Sewer Under a Railroad	Sept.—42
Trench Backfill Was a Costly Headache	Sept.—82
Bid Prices on Large Sewers	Oct.—37

Sewer Systems—Design

Sliding Curve Solves Partly Full Pipe Problem	Sept.—48
---	----------

Sewer Systems—Finance, Legal and Planning

The Development of Sewerage in Los Angeles	Jan.—34
Why Municipal Engineering Records Are Essential	Jan.—49
Small Town Sewage Works in Georgia	Jan.—60
Legal and Engineering Factors in Waste Treatment	Feb.—43
Sewer and Water Extension Policies	Feb.—65
Philadelphia's 6-Year Improvement Program	Feb.—77
Philadelphia's Six-Year Program for Public Works	Aug.—46
Bid Prices on Sanitary Sewers in Texas	Aug.—80
Trunk Sewer Proposed for Raritan Valley	Sept.—56
Bid Prices on Large Sewers	Oct.—36
Sewage Plant for a Metropolitan Area	Oct.—113

Sewer Systems—Maintenance

Sewer Maintenance Truck	Feb.—56
Solving the Sewer Cleaning Problem	Feb.—48
Machines Clean Sewers	Apr.—103
Fast and Clean	Apr.—103
How Storm Sewers Were Relined and Repaired	June—55
Long Radius Ell Speeds	June—55
Pipe Cleaning	Sept.—89
Sewer Maintenance Equipment and Organization	Dec.—47

Sewer Systems—Storm Drainage

How Storm Sewers Were Relined and Repaired	June—55
Pumping Stations and Sea Wall Provide Flood Protection	Nov.—51

Sewage Treatment—Design

Modern Sewage Treatment for a Summer Resort	Jan.—36
Additions Quadruple Sewage Plant Capacity	Mar.—35
Septic Tank Design for Food Waste Disposer	Mar.—51
Sewage Treatment at Detroit	May—50
Gas Storage at a Sewage Treatment Plant	June—91
Material Requirements for Sewage and Water Installations	July—35
Unusual Design for Small Waste Treatment Plant	Aug.—44
Rebuilding an Old Trickling Filter	Aug.—50
Utilizing Sludge Gas at Los Angeles	Aug.—58
Sewage Treatment for the Nation's Needs	Oct.—53
Removal and Disposal of Screenings and Grit	Oct.—61
Design Data and Equipment for Sedimentation	Oct.—64
What You Should Know About Sludge Digestion	Oct.—67
Designing Activated Sludge Plants	Oct.—72
How to Design Trickling Filters	Oct.—75
Activated Sludge for Sewage and Waste Treatment	Oct.—78
Selecting and Installing Sewage and Sludge Pumps	Oct.—82
Settling Tank Performance	Oct.—107
Sewage Project Includes Special Sludge Treatment Plant	Nov.—34
Denver Expands Its Sewage Treatment Plant	Dec.—58

Sewage Treatment—Industrial Wastes

Waste Problems of Industry	Feb.—40
Industrial Waste and Sewage Treatment Research	Feb.—70
High Rate Anaerobic Digestion of Meat Packing Wastes	July—44
Canning Plant Lagoon Loading	Aug.—42
Railroad Industrial Waste Treatment Plant	Sept.—57

Sewage Treatment—Operation

Controlling Filter Flies	Jan.—39
Maintenance Procedures for Comminutors and Screens	Feb.—59
Civil Defense for the Sewage Treatment Plant	Apr.—77
Detergents and Sewage Treatment	June—96
Sewage Treatment Results at Daytona Beach	July—66
Sludge Treatment and Disposal at Richmond-Sunset	Aug.—80

Sewage Treatment—Research and Processes

Enterococci as Sewage Pollution Indicator	Jan.—79
Industrial Waste and Sewage Treatment Research	Feb.—70
Transparent Envelopes Trace Water Currents	Mar.—26
Sewage Sludge Converted to Soil Builder and Fertiliser	Mar.—56
Phenol Waste Treatment by Chlorination	Mar.—85
Prefabricated Tile Media for Biological Filters	May—36
How Texas Controls Water Pollution Test Results on Single Stage	May—46
Biological Filter	June—70
Heat Treatment for Conditioning Sludge	June—82
Pollution of U.S.-Canada Boundary Waters	June—99
Mobile Laboratory for Water Pollution Control	July—48
Using Sodium Nitrate for Odor Control in a Polluted Stream	Aug.—57
Modern Sewage Treatment for Cincinnati	Oct.—58
Velocity Constant Determination	Oct.—129
Chemical Treatment of Sludge	Dec.—55
Experience with Chlorobin in Sludge Digestion	Dec.—61
Rational Standards for Pollutants	Dec.—62

Digests

Jan.—55; Feb.—78; Mar.—66; Apr.—122; May—59; June—92; July—58; Aug.—83; Sept.—73; Oct.—114; Nov.—57; Dec.—83
--

WATER SUPPLY AND PURIFICATION

Finance, Legal and Planning

Water Costs in St. Paul	Jan.—22
Why Municipal Engineering Records Are Essential	Jan.—49
Sewer and Water Extension Policies	Feb.—65
Philadelphia's 6-Year Improvement Program	Feb.—77
Civil Defense for Water Supplies	Apr.—71
A Water Works Material Inventory System	May—63
How Organization and Equipment Help Winchester	June—58
Maryland's Fluoridation Policy	June—75
Material Requirements for Sewage and Water Installations	July—35
Problems in Rain Making	July—36
Philadelphia's Six-Year Program for Public Works	Aug.—46
New York Fluoridation Policies and Procedures	Aug.—91
Controlling Water Service in Subdivisions	Sept.—42
Good Public Relations Helps the Fluoridation Program	Oct.—55
Civil Defense Planning for the Water Department	Oct.—57
Municipal Engineering Problems and Solutions	Nov.—32

Pumping

Hoy System Head Curves Solve Pump Buying Problems	Mar.—48
Maintaining Uniform Water Pressure	Apr.—113
Diesel Power for Pumping and Civil Defense	Aug.—49
Remote Controls Work Very Well	Sept.—43
Biggest Turbine Pump for New York	Sept.—43
Hudson River Supply	Sept.—66
Vertical Turbine Pump Applications in Water Supply Systems	Nov.—48

Reservoirs and Tanks

Storage Tank on a Man-Made Hill	Mar.—84
What You Should Know About Painting Water Tanks	June—50
Details of Steel Reservoir Construction	July—74
More Water for Munkegon	Aug.—52
Redesigning a Cathodic Protection System for an Elevated Tank	Nov.—36

Supply Lines and Distribution— Construction

Cement Lining Cast Iron and Steel Fittings	Feb.—46
Dallas Spends Millions for Water Works Improvements	Feb.—52
Ditcher Remodeled for Highway Clearance	Feb.—62
Air Tools Indispensable for Trenching	Mar.—26
High Speed Laying of Pipe Line	May—39
Pipe Pusher Saves Cost Many Times Over	May—50
Hydro-Crane Has Many Uses	June—47
Power Crane Saves Water Department Money	June—47
Tractor and Backhoe Speed Up Pipe Laying	June—57
Air Pressure to Install Service Line	June—88
How We Solved Our Digging Problems	July—50
More Water for Muskegon	Aug.—62
Jeep-A-Trench for Water Main Trenching	Sept.—43
Special Backhoe Solves Trenching Problem	Sept.—43
Backhoe, Tractor Shovel and Crane Speed Up Work	Sept.—44
Trench Backfill Was a Costly Headache	Sept.—82
Water Jetting Service Lines	Oct.—56
Lowering a Water Main	Oct.—57
Earth Boring by Machine for Services and Small Mains	Oct.—57

Supply Lines and Distribution— Costs

Dallas Spends Millions for Water Works Improvements	Feb.—52
Cost of Laying Water Pipe in 1949	Mar.—26
Cost of Laying Water Main and Repairing Meters	May—58
Cost of Installing and Repairing Meters	May—58
Cost of Laying Water Mains in Elmira, N. Y.	Oct.—36
Cost of Laying Water Mains in Augusta, Me.	Oct.—36
Comparative Costs of Water Works Items — 1948 to 1951	Dec.—32
Cement Lining Mains to Increase Carrying Capacity	Dec.—32
Cost of Laying Water Mains in Kenosha, Wis.	Dec.—32
Cost of Laying Water Pipe in Hartford, Conn.	Dec.—36

Supply Lines and Distribution— Design

Electrically Operated Valves Control Water Distribution	June—85
New Water Works for Winston-Salem	Dec.—45
Expanding Cincinnati's Water System	Dec.—52

Supply Lines and Distribution— Maintenance

Emergency Water Connections	Jan.—52
A Truck Equipped for Water Works Service	Feb.—37
Water Department Utility Trucks	Feb.—38
Sanitary Supervision of the Houston Water Supply	Feb.—42
Waukesha Water Utility Uses Mobile Crane	Feb.—65
How to Install and Maintain Fire Hydrants	Apr.—110
Special Equipment for a Water Department Truck	June—49
How Organization and Equipment Help Winchester	June—58
Labor-Saving Equipment Pays Off	Aug.—43
Pumping Out Hydrants the Easy Way	Sept.—41
Two-Way Radio in Water Department Operation	Sept.—50
Long Radius Ell Speeds Pipe Cleaning	Sept.—59
Dry Ice Simplifies Curb Stop Replacement	Oct.—56
Corrosion in Private Water System From Electrolysis	Oct.—58

Treatment Plants — Costs

Water Filter Reconstruction Costs	Mar.—28
Welding-Cutting Equipment Pays For Itself	May—49
More Water for Muskegon	Aug.—62

Treatment Plants — Water Testing

How to Take Water Samples	Jan.—35
Sanitary Supervision of the Houston Water Supply	Feb.—42
Nitrate Pollution in Drinking Water	Apr.—107
The Microtrainer in Water Filtration	May—69
Mobile Laboratory for Water Pollution Control	July—48
Membrane Filter Technique for Water Bacteriology	Dec.—74

Treatment Plants—Design

Small Water Treatment Plants (Filtration)	Jan.—40
Unusual Flexibility Features	Mar.—40
Water Plant	Mar.—40
High-Rate Water Filtration at Chicago	Sept.—58
New Water Works for Winston-Salem	Dec.—45

Treatment Plants—Operation

Small Water Treatment Plants (Filtration)	Jan.—40
Washing Filter Sand in Charleston	Mar.—60
Helpful Suggestions for Operating Water Works	May—38
Feeding Fluorides in Lewiston	June—88
Remote Controls Work Very Well	Sept.—43
Problems in Handling Liquid Alum	Oct.—58

Treatment Methods

Fluoridation Results at Lewiston, Idaho	Jan.—79
Chlorine Dioxide Controls Serious Taste Problem	Apr.—112
Diatomite Filters Solve Pool Problem	Apr.—114
Good Public Relations Helps the Fluoridation Program	Oct.—55

Digests

Jan.—66; Feb.—66; Mar.—78; Apr.—108; May—70; June—77; July—68; Aug.—70; Sept.—85; Oct.—102; Nov.—70; Dec.—66	
--	--

Water Demand

Water Supply Demand Factors	Jan.—52
Meter Reading Book and Customer Ledger	June—62
Fire Protection for Outlying Districts	Oct.—67
Water Usage by Manufacturing Industries	Dec.—60

Water Supply and Sources

Sanitary Supervision of the Houston Water Supply	Feb.—42
Civil Defense for Water Supplies	Apr.—71
Supplying Industrial Water to Tacoma	May—33
Radar Detects, Tracks and Measures Rainfall	May—69
Deep Well Replaces Subsurface Collection System	June—57
Grouting a Leaking Dam	June—63
Problems in Rain Making	July—36
How a Water Conservation Program Was Organized	July—72
Ten Billion Gallon Industrial Water Supply	Sept.—50
Water Rationed at 4 Gals. per Capita per Day	Sept.—90
New Water Works for Winston-Salem	Dec.—45

GENERAL AND MISCELLANEOUS

City Adopts Annexation Policies	Jan.—22
Air Pollution Control for a City	Jan.—46
How Engineers May Apply for Commissions	Feb.—53
Sanitary Engineers Needed for Civilian Overseas Work	Feb.—54
Tennessee Planning Commission Sponsors Local Capital Budget Studies	May—51
How Engineers May Apply for Commissions	May—77
V-Belt Drives in Public Works	June—60
Get Engineering Advice First	June—64
The Wheel Method of Handling Records	June—62
Sludge Gas as a Fuel for Motor Vehicles	June—97

How to Measure Air Pollution	July—54
So You Have to Make a Speech	Aug.—69
The Procurement Merry-Go-Round	Aug.—60
Municipal Services in Fringe Areas "Joining" Fee for Areas Annexed to City	Oct.—107
Radioactivity Gauge for Snowfall	Oct.—118
How Correct Lubrication Saves Public Works Dollars	Nov.—53
Wisconsin Bill Permits Escalator Clause	Dec.—98

LEADERS IN PUBLIC WORKS

Jean L. Vincenz	Jan.—1, 16
Allen H. Rogers	Feb.—1, 31
B. W. Davis	Mar.—1, 22
M. F. Caldwell	Apr.—1, 28
James C. Harding	May—1, 24
Dewitt C. Greer	June—1, 30
Walter M. Swietlik	July—1, 24
Marion E. Borias	Aug.—1, 32
Milton Rosen	Sept.—1, 30
Frederick H. Zurmuhlen	Oct.—1, 30
Albert H. Ullrich	Nov.—1, 22
Daen Edward R. Stapley	Dec.—1, 26

PUBLIC HEALTH

Sanitary Engineering Problems in Disaster	Apr.—68
Effect on Humans of Chloroform, Aldrin and Dieldrin	Apr.—82
Investigating Public Health Hazards	Apr.—130
Fly Control at Illinois State Fair	May—43
Water Borne Disease Outbreaks in 1949	May—62
Low-Cost Kitchen-Bath Unit	Oct.—127
Danger of Water Main and Sewer in Same Trench	Nov.—73
Corpus Christi Cleanup Program	Dec.—44

INSECT AND RODENT CONTROL

Controlling Filter Flies	Jan.—39
New Insecticides and Methods for Pest Control	Mar.—46
Controlling Rats in New York City	Mar.—53
Insect and Rodent Control in Civil Defense	Apr.—79
Helicopter Used for Spraying Shade Trees	June—88
How Pest Control Operators Can Serve in Civil Defense	Oct.—110
Pest Control in a Southern City	Dec.—74

RECREATIONAL FACILITIES

Cleaning Skating Rinks Faster	Feb.—36
Seasonal Conditioning for Your Swimming Pool	Feb.—55
Diatomite Filters Solve Pool Problem	Apr.—114
Milwaukee Starts on New Stadium	Sept.—42
